

Tierrett Catheter for cats

Registration No. of Medical Equipment for Animal Use: 26-3981

Urinary catheter developed with the concept of **“not easily coming out”**

○ Features

- Tube made of pliable polyurethane
- Two types are available: Straight and pig tail
- The pig-tail type outfitted with side holes is suitable for urethral catheterization/placement.

“Tierrett”, derived from the German word **“Tierrettung”** (aid for an animal), is a brand of **CREATE MEDIC** for animal medical products that were developed with the aim of helping sick animals.

Tierrett Catheter for cats

Features and Advantages

Features common to both straight and pig- tail types

- Polyurethane tube
 - The tube is made of pliable and elastic **polyurethane**.
 - Three X-ray contrast stripes help visualization of the placement under fluoroscopic control.
- Connector
 - **A lightweight/compact lure connector** is adopted to reduce stress.

Pig tail

- Shape of tip
 - **The shape of a pig tail provides resistance against** the urinary sphincter. Thus, it is **effective for urethral catheterization on the spot**.
 - **Loop diameter is set at 10 mm.**
- Side holes
 - **Three holes** (2 round and 1 oval shapes) **smoothen urethral catheterization**.

> Connector

> Straight

> Pig tail/side holes

Product Specifications

> Straight (Open tip type)

Product code	Size designation	Outer diameter (mm)	Effective length (mm)	JAN code
800-001-3516	3Fr	1.10	120	4542187191844
800-001-3518	4Fr	1.33	120	4542187191868

5-pack box/Sterilized

> Pig tail (Closed tip with side holes)

Product code	Size designation	Outer diameter (mm)	Effective length (mm)	JAN code
800-001-3517	3Fr	1.10	120	4542187191851
800-001-3519	4Fr	1.33	120	4542187191875

3 side holes with stylet; 5-pack box/Sterilized

> Usage Note

- When inserting the pig tail, stretch the catheter and insert the stylet.
- Do not push with force. Stop using the product when having difficulty in inserting it, and use an alternative method.
- Please note that the product specifications are subject to change without notice to reflect the results of our consistent R&D efforts.
- Read the package insert before using the product.
